Be sure to have your payment ready. We accept Visa or MasterCard credit or debit cards.
Financial Aid

Financial aid is available for eligible students. Students and their families do not necessarily need to be considered low-income to qualify for some kinds of financial aid, but students must demonstrate financial need to be eligible for federal assistance.

Even if you’re receiving financial assistance from agency sources (L&I, VA, DVR, WorkSource, WorkFirst), you may be eligible for additional grant aid from state and federal financial aid sources. We determine eligibility by comparing the difference between the cost of attending school and what you and your family can afford to pay.

Apply Early

Students are encouraged to apply for financial aid as early as possible since pre-qualification may take up to eight weeks from your application submission date.

Eligibility for Financial Aid

A student may be eligible for financial aid if he or she is:

• Attending Bates to obtain a degree or certificate
• A U.S. citizen or eligible non-citizen
• Making satisfactory progress in a program of study, as defined by the institution’s satisfactory progress criteria
• Not in default on any previous student loans or owing a refund on any grant

Scholarships

The Bates Technical College Foundation can help students pay for their education! Scholarship offerings vary from quarter to quarter, and the Bates Foundation encourages new and current students to apply for scholarships every quarter. Individual awards range from $100 to $1,000 per quarter.

To apply, please visit: www.bates.ctc.edu/FinancialAid

Cooperative Preschools

www.bates.ctc.edu/Preschools

Participate in your child’s early education! Enroll in a parent-participation preschool program where you’ll learn the latest developmentally appropriate early childhood education and guidance techniques. Children participate in activities that include literature, music, reading and more. Visit www.bates.ctc.edu/Preschools to find a cooperative preschool in your area.

*Also serves one-year-olds.

Bates-affiliated cooperative preschools and the Parent Child Preschool Council comply with all federal rules and regulations and do not discriminate on the basis of race, color, creed, national origin, gender, sexual orientation, age, marital status, disability or veterans status.

Career Information Sessions

Career Information Sessions cover specifics about your career program—enrollment deadline dates, costs, financial aid, program requirements, support services, resources for students and Bates policies and procedures. Choose your area of interest and attend the appropriate career education information session below. If you can’t attend a session, contact a career advisor or the instructor directly to make other arrangements, or call 253.680.7002.

High School, Adult Basic Education, and General Education

High School Options
www.bates.ctc.edu/HighSchool
Whether you’re a high school-age student ready to jumpstart your college education, or an adult who wants to earn a high school diploma—whatever your needs are, Bates can help.

Check out the variety of options to learn which program is right for you.

- Technical High School, Career Training
- Afternoon Technical High School at South Campus
- Running Start
- General Education/Diploma Completion
- Adult High School Completion/Diploma Completion

Visit our website at www.bates.ctc.edu/HighSchool to explore options, learn about orientation dates and more.

Adult Basic Education (ABE/GED/ESL)
www.bates.ctc.edu/GeneralEd
Our English as a Second Language (ESL), Adult Basic Education (ABE) and General Education Development (GED) preparation classes help those who need to improve mathematics, reading, and writing skills. Bates offers classes at our campuses and several off-campus locations. For more information, call 253.680.7274.

General Education Courses
General education and basic studies courses are an important component to a Bates education. You can start now on prerequisite courses if you’re on a waitlist for a career education program. Completion of general education requirements for degrees and certificates can complement your industry-specific skills training. No matter where you start in your academics, we can help you reach your goals.

Courses meet Monday-Friday for one hour and 15 minutes, and are 5 credits, unless otherwise noted. Visit www.bates.ctc.edu/GeneralEd to learn more.

Caring for Kids
Sarah Haren ’05, Early Childhood Education/Child Care

“Going to school at Bates changed my life and set me on the path to success,” says Sarah Haren ’05, now a lead teacher at the college’s child care center.

After the birth of her daughter in 2001, she decided to test for her General Education Development (GED) at Bates. While sitting for the battery of tests, she had the opportunity to explore the campus and the college’s vast program offerings.

“Ever since I can remember, I’ve loved being around younger children. I’ve worked as an assistant or a break person in child care settings since I was 15 years old,” says Sarah, now a mother of two daughters. So, it was natural that she pursued a career that connected her with her passion of working with kids.

Soon after earning her GED in 2002, she enrolled in the Early Childhood Education/Child Care program. “I am so grateful that both of my children were able to attend the child care center and be close to me while I attended school,” she says.

Graduating with an associate of technology degree in 2005, with honors, she worked an hourly position in the college’s child care center. “I patiently waited for a full-time position to open as an early childhood education specialist,” she says. “Finally, in 2007, a position opened, I was hired, and my career began.”

Sarah notes that some of her fondest memories of her studies were when she worked in the child care center as part of her lab. “It was a great experience. [Instructor] Laurie O’Neill demonstrated a passion for teaching,” she says.

“Bates is my career. It is part of a diverse community and I love the opportunity to meet and talk with new people every day,” says Sarah.

16th Annual Brain Series
Raising courageous citizens: How brain science can expand your parenting tools
Thursday, April 25, 7-9 p.m.
South Campus Auditorium, 2201 S. 78th Street, Tacoma

A resilient child. A responsible teen. A respectful adult. Discover how you can foster these qualities and more, and how to nurture your child’s growth and development. Explore how your child’s brain works, and learn to harness this knowledge to develop and enhance your parenting tools. Listen as Dr. McVittie explains how understanding brain science can help us raise compassionate, connected and courageous youth.

About Jody McVittie, MD
A trained family physician, Jody McVittie has worked with schools and as a parent educator since 1994. In addition to training parent educators, she also teaches family doctors the skills they need to help educate parents in an office setting. Jody’s dream is to build healthy communities through teaching parents, teachers, and students how to work together in relationships based on mutual respect. The Everett native is a married mother of three young adults, whom she counts as some of her greatest teachers.
