

Guide to Student Satisfaction Survey Results

Here are descriptions of the different aspects you will see for each of the questions:

“Mean” is the average using the values associated with each response.

The following statements relate to enrollment and registration. Please indicate how much you agree or disagree with each statement. If any statement does not apply to you or you cannot remember the experience, please select N/A. : The College Catalog accurately represented my program.

Project	Strongly Agree (5)	Agree (4)	Neutral (3)	Disagree (2)	Strongly Disagree (1)	N/A (0)	Respondents/Enrollments	Mean	STD
Student Satisfaction Survey	144 (30.32%)	177 (37.26%)	82 (17.26%)	17 (3.58%)	9 (1.89%)	46 (9.68%)	475/1754 (27.08%)	4.00	0.94
Total	144 (30.32%)	177 (37.26%)	82 (17.26%)	17 (3.58%)	9 (1.89%)	46 (9.68%)	475/1754 (27.08%)	4.00	0.94

% indicates the proportion of students selecting that response.

Number indicates the value associated with that response. This is for calculating the mean and standard deviation.

Number of student respondents/Number of students enrolled in the survey

“STD” is standard deviation
