

Career and Technical Education Business and Industry Route Teacher Preparation Program

Bates Technical College offers training that prepares individuals with business and industry experience for career and technical education (CTE) teaching careers at the secondary level, grades 7-12. Bates is approved by the Washington State Professional Education Standards Board to offer this business and industry route to CTE teacher certification. The program consists of 11 teacher preparation courses:

- Methods of Teaching
- Occupational Analysis
- Course Organization
- Philosophy of Career and Technical Education
- Industrial Safety
- Work-Based Learning Coordination
- Student Development and Leadership
- Diverse Needs of Students
- Introduction to School Law
- Abuse and Neglect of Children
- Teaching Practicum – CTE

In addition to the required courses, you must also meet a basic skills proficiency requirement. A transcript review process is available to help determine if you can substitute previous coursework for a required course(s).

The competency-based training is flexible, making it easier for you to maintain jobs and family responsibilities while moving through the program. Courses are offered quarterly on weeknights and weekends and via distance learning. An accelerated summer weekday offering provides an opportunity to complete the majority of the courses during the summer. You design your own plan to meet your individual needs.

Bates offers three different types of instructional delivery formats for the teacher preparation courses:

Classroom: The instruction is presented in a traditional face-to-face setting, and is web enhanced. Prior to the course start, you will receive an email with instructions to access online resources via Canvas.

Online: The instruction is presented online using the Canvas course delivery system. Check the schedule for required start dates. Prior to the course start, you will receive an email with instructions to access the course via Canvas.

Hybrid: The instruction is presented online as well as in a face-to-face setting. Check the schedule for required meeting dates. Prior to the course start, you will receive an email with instructions to access online resources via Canvas.

Please scroll down to view our current course schedule. You may register in-person or online. For more detailed information, or further assistance in registering for CTE classes, contact:
