## Congratulations to Bates' 2009 All-Washington Academic Team!

Richard Box

### Richard Box Auto Mechanics

Richard Box chose Bates' auto mechanic program because he wanted to "fast track" his way to completion so he can quickly get out in the field. Richard, who mentors new students and volunteers for the Special Olympics in his spare time, fell in love with cars at the ripe age of four. "My dad and I watched the movie 'The Cannonball Run' when I was four years old, and I was hooked from that moment on," says Richard. Richard, who will complete his degree this year, says that working on cars is his passion. "Why not earn a living doing what I love? That's why I came to Bates."

Harold "Trace" DeHaven

### Harold "Trace" DeHaven Wireless Voice & Data Communications

With 14 years of working at the Department of Social and Health Services behind him, Trace decided to make a career switch. He knew he wanted to work with his hands and whatever he did, he must be outdoors. Trace chose Bates because he heard that it is "the best technical college in the area" that offered his program of choice. "I really liked the 'real-world,' 'hands-on' approach to training," says Trace, who will complete his degree in June 2009.
